POPE RALLIES AND IS BETTER

Was Thought to Be Dying

PHYSICIANS REPORT SYMPTOM REASSURING

Late Last Night He Had a Bad Coughing Spell, Emitting Blood

Rome, April 14.-Pope Pius X's condition was improved to-day. The bulletin issued by his physicians says that that his bronchial symptoms were reassuring. His temperature was 99 and that it took a wrecking crew hours to rehis general condition was good.

Although the pope rested quietly during the forenoon, his physicians were somewhat concerned about his growing weakness. The pontiff took little notice of those around him. His temperature had decreased at noon and it was bebelieved there was no further danger from an attack of pneumonia.

Great alarm was occasioned about eleven o'clock last night, when the pope during a long access of coughing emitted a quantity of blood. Those present thought that he was dying and rushed for a doctor and Cardinal Merry Del Val. The latter, on reaching the bedside, re stored calm, saying that probably the Pope would feel great relief, as the presence of the blood was doubtless due to bodies were crushed, one being that of the rupture of small vessels in the Margaret Deer.

There was another alarm yesterday afternoon. That occurred at St. Peter's. A hundred Polish pilgrims, led by their bishop, were within the Basilica, when they heard the sound of many bells. Thinking that this was the announce ment of the death of the pope they gathered around the bishop and intoned prayers for the dead.

Dr. Amiel, in a statement made last right, prior to the extremely serious conditions which arose, said:
"The condition of the pope is grave

but not alarming. We can overcome the present crisis. Then if he follows the dectors' advice, he may live some years

The present relapse was due to the reluctance of the Pontiff to submit strict. In Conducting Their Eleven Weeks' ly to the medical regime. The moment he feels better he wishes to resume his ordinary occupations which cause loss of strength and great danger."

Excursion Train Derailed in Canada Yesterday Afternoon-Fifteen People Were Injured.

Montreal, April 14 .- Seven persons are lead and 15 were injured as the result of Following a Period When He the detailment of an excursion train yesterday afternoon on the Montreal-Chambly branch of the Central Vermont rail way about four and a half miles out of St. Lambert. The train was carrying about 700 passengers, who had taken advantage of the free trip given by Cottrell, limited real estate agents, to prospective purchasers of lots at Albani subdivision, and which was returning to Montreal at a speed of between 20 and 30 miles an hour, when from some as yet inknown cause the engine and the three first coaches left the rails near East Greenfield station.

The telescoping of the ends of the de-railed coaches caused most of the fatalities, nearly all of which occurred in the first two of the derailed cars. Escaping steam from the boiler of the locomotive, which was thrown over on its side, filled the coaches and hampered passengers in

The passengers from the other ears formed a rescue brigade and worked hard to extricate the dead and injured from the wreckage. Their efforts were fruitless in the case of some of the victims His Holiness passed a tranquil night and whose bodies were so firmly wedged in the shattered remains of the coaches lease them. Rutland, April 14,-Frank Borkmas, a Slav, employed in the slate quarries at Poultney, was probably fatally burned yesterday afternoon when he awoke from a nap in one of the shanties and found the place ablaze and the roof ready to fall in.

Borknas with two friends walked over to the shanty early in the afternoon and the man lay down and fell asleep. The others started a fire in a small stove and then walked to another quarry. The stove set fire to the wooden shack and n a very few minutes Borknas was neary burned to death.

When he awoke he rushed out the door and jumped into a pool of water which was nearby and then walked over a mile to his home. He was nearly dead from exhaustion and practically all his clothes were burned off.
